PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong foundation in solving complex problems through efficient algorithms and building scalable web applications. Full-stack Python Django Developer with proven experience delivering secure, high-performance applications. Implemented machine learning algorithms enhancing user experience, resulting in 25% increase in customer retention.

Key Achievements:

- Founded and led Innova Tech startup, managing 12-member team for 1 year
- Collaborated on local projects with Hello World Technology BD
- Active remote developer on international projects via freelance platforms
- Currently developing: Recruitment Management System with ATS and Digital Wallet System

TECHNICAL SKILLS

- Languages: Python, C++, C, C#, Java, Kotlin, JavaScript (Intermediate), TypeScript, HTML5, CSS3, Assembly
- Frameworks & Libraries: Django, Django REST Framework, .NET, Bootstrap, Tailwind CSS
- Databases: PostgreSQL, MySQL, SQLite
- Tools & Technologies: Git, GitHub, GitLab, Docker, AWS, Heroku, Postman, Linux, RESTful APIs, JSON
- Testing & Methodologies: Unit Testing, Integration Testing, pytest, Scrum, Agile, Project Management
- Specialized Skills: Django ORM, Asynchronous Programming, Cloud Deployment, Machine

EDUCATION

Bachelor of Science in Computer Science and Engineering | Mar 2022 - May 2026 (Expected) East Delta University, Chattogram (EDU)

Completed 151 of 166 credits (without thesis)

Current Thesis: LLM and Generative Models (GAN variants)

Advisor: Saklain Abdullah, Lecturer, East Delta University

PROBLEM SOLVING PROFILE

- **Codeforces: Active participant, 300+ problems solved |** *https://codeforces.com/profile/Ritish_Singha*
- **LeetCode: Regular problem solver**
- **CodeChef: Active contributor**

COMPETITIVE PROGRAMMING & EVENTS

- Premier University Inter-University Programming Contest 2024 (Chittagong Division)
- ICPC Asia Dhaka Regional Site Online Preliminary Contest 2023
- EDU Intra-University Programming Contest
- IEEE Workshop on Microcontroller and Sensor Interfacing Techniques
- School volunteer for sports and cultural events (organizer and monitor)
- Secured 2nd Runner-Up at EDU HackFest 2025, 55-hour innovation sprint among 32 teams.
