SUMMARY

Computer Science and Engineering undergraduate with experience in software development, client collaboration, and technical problem-solving. Skilled in communicating with clients, gathering project requirements, and coordinating technical tasks across teams. Possess working knowledge of Python, AI tools, Django REST Framework, JavaScript, databases, QA, WordPress-related technologies, and modern web tools. Analytical and organizational abilities developed through freelance projects, software development collaborations, and remote work environments. Adept at documentation, troubleshooting, and maintaining clear communication between clients and technical teams. A quick learner with a proactive attitude, committed to delivering client experiences and contributing to business growth through effective coordination and professional support.

SKILLS

Languages: C, C++, C#, Python, HTML5, CSS3, JavaScript (Intermediate), Typescript.
Frameworks & Libraries: Django (REST Framework), Dot NET, Bootstrap, Tailwind CSS.
Databases: PostgreSQL, MySQL, SQLite.
Tools & Technologies: Git, GitHub, Postman, Linux, Playwright.
Testing & Methodologies: Unit Testing, Integration Testing, Scrum, Agile, Project Management
Specialized Skills: Django ORM, Asynchronous Programming, Machine Learning

PROJECTS & COMPETITIVE PROGRAMMING

- **Current Projects:** Developing a Recruitment Management System with ATS and a Digital Wallet System.
- **Problem Solving Profiles:** Regular problem solver on LeetCode and active contest participant with 300+ problems solved in Codeforces.
- **HackFest 2025:** Secured 2nd Runner-Up at EDU HackFest 2025 (55-hour innovation sprint).
- **Contests:** Participant in Premier University Inter-University Programming Contest 2024 and ICPC Asia Dhaka Regional Site Online Preliminary Contest 2023.

EDUCATION

Bachelor of Science in Computer Science and Engineering March 2022 – May 2026 2026 (Expected)
East Delta University, Chattogram (EDU)

RESEARCH & WORKING EXPERIENCE

- Collaborated on various local paid software projects and international projects via various freelance platforms.
- **Current Thesis:** Beyond Catastrophic Forgetting: Orthogonally Projected Weight Editing Dominates the Safety–Utility Pareto Frontier in Protein Language Models | Advisor: Saklain Abdullah, Lecturer, East Delta University.

CERTIFICATE COURSES & WORKSHOPS

- IEEE Workshop on Microcontroller and Sensor Interfacing Techniques.
- EDU Intra-University Programming Contest.
